Dear Jerry.
12/13/76
Thanks for your tima oard adid for thiridig to send it. ke used to enjoy sendig thom and my wife kapt a long list but for yoars it has been inpossible.

I'离 sorry thbout the Supreme Courta we know the oids were against it but it had to be done. The court should have sone for Jimy. It had to be given a chance to and he lost nothing by making the efiort. be may have lost much by his course of conduct and his atatementa prior to it.

Tou are foing to find out, in time, that i have nevar iled to nny one of you. At some point I hope you will coms to realise that an inability to trust has been very hurtful to what pight bave been. You do not undarstand tis now, Its sure. Bech of us is what life makea him. Life's experiences. In some areas this becsones a cite of prifson from which there is no escape.

Felther Jiniy nor the rest of you over really did understand all that was intended by the conditions of Jisuy's capitivity. Thay also werc woritng on his mind. To a large degree thay hava succeoded. I'm sorry abcut it, very sorry, but there is nothinj I can do about ito inis. I an sure, is foapontible for much of what diwy has cone that was hurtiul to hinself. Including what he has been up to recently. I know more sbout this than I'va taken tine to tell you. Remember I did invite you to start your pecation here berore its time was diantec to when I had to be away. Lou still could have cowe after I returned. But if you are unililing to believe thon thet time also would have been wasted. Jimn is dealine with bal people and is trusting the wron people. I cangt take any more time to try to cet hif to see it. He is no longer capable oi seoling what he coes not want to. If it is understandsble that he foels desparate this does not change realities.
ite has strange idoas about the new cometter and believina domelp Parry anon, as I've said, did foolish thinge with them. Thay really are out to get him for polisical regsons. I can show you this from what wentm on at conmittee meetinge, where they all lied about Jtmy sna the evidnnee against him. They geve the stralght prosecution line only they made up lies to stementhen it. Whether he oan tany lonesr tell the difference or doesn't remember it or has somo emotional drive that recuires it dimuy aimply has not ceen truthrul about some matters. One is the excuse he made up to be a bigmot ano wate that conisttee a letter. They must heve laughed all the way to the bank on that one. it also Efves them an accurate reading on fimuy and how they ean work around bim as others, ilke danos and Forvman did. Jimuy oven peid no sttention when I told him what was salng on inside the comittee's meetings. 3 told sin the truth. "y sources vore the veet. Now I have semon it in black and minite.
 alwaya bacn open with you and I are sure you do realise this. I inviter you her to read Frate-Up bofore it was printed, as you know, and I asked nothing of you in return. The sams on coxing hure tc see what alse I bava developed and what I an woricirg on. Thise is the state of 51 mmy"s aind today and he does make things up to give him "explanations" he
 just pould not let himself recognize it. I did tell finay what he bed to know and he did know the atate of our relationshipe gnd what it meant or could mean to him and what he could do about it is wanted to. (Thy ho never fied Sob, for example, III. nuver be able to understand. "ob agys to get hls neme in the aspers that inmy enould sell ail and Jimmy write the sixth circuit a letter praising bob to the olcies - but never actualiy iliging bim. So Dot has bedn goine around tellins people he is still coumsol of rucori. I sent jim prood of this iroa one of my lionphs aources. सiow Bob has rade the same statement, still represented
 Ls guilty and should confess. "ou make snese of it. I can'to.

The aituation is bad but it is not hopeless, which is one of the rasong I take tins to write now then I should be doing other thinga, poticularly when I got farthur behind from the tendon trouble in py right arm. it is not all better yet. I'd like you to succeed, not to relive the saze refistakes. for wy part I will continue to investisnte and to develop

What I can in the hope the time will come when it can be usvid. Noine this with Jivery's ojcosition and the rest of you a ing along with it is a bit much under any circuustanees, wore under wine of thia time. You will find that I have represented this work and ith frut to you homestly and lairly and maybe in time you will cons to leam that soin of what inum hes done one has not done recuced the potentlal of 1t. Once we stu what inciae was we started back on what I had begin in 1969. An I've told you, you are welcom to see what I tis fetingo as time goes one, and I co not think it now will be a lonk time, I will heve wuch put togethor. Jini and I are winatag this in court. That is why the iJJ's man on
 tum this around. ac has no wsy of knoulne what they will be driving at with nowe of thair questions or what they an and will use it for. Jim and I have even arde the roi sive us their fodex to the case against hix thet they gave Gunala. I huve it now, in not, books. it is su large it tahes up iarge notebooks, sevel holding up to 3 inches, and 1 ordinary sized one. Colng alons with this I have over a thoussend of their rocords thon and I will be getting more, s.pposedily not less than 400 pages a wek. I have tol. jimy thig but notiling lakes any diftereace to hitu non. From thece racesta I can toll you ruch. Une所nor axample is what ingy would not believe when I tried to tell hilw years ago in an effort to get him to be helprul in ways thet were possibla ani he pretended wers not. There were prints leff behind other then his snt tha FBI knowe whose they are in some casms. I now have the proof of how they worket surout thise on that only lowd jumay over cave me. I did work on it an soon es he fold me. fhey are uptight over hissisaiph, where he wes there, another in hig ase of the name Lomworer. They had a realiy bis investigation of that and il was effective. housends of hours, mung, wany atento Shoy found a Lonmer who hai a criainal recond in tos angoles, one who his bear fuy juil in bllinols. I'te forgotten whether henard or where dohn is, one in uainey, which len them in a nertain

 up. Thoy quate fible to trace Jimuy pretty fast by tho trails he leot bahtud him, includides changes of address. by the way, it would bo good to know of you wrote him in the period up to as I recall april 10,1968 becaust they pleked up mail sent to hin not all of which has been known publicly. They did talk about the locicsmith courses but not about lattere. There $\begin{aligned} & \text { Pere letters for him in Atlanta. There are other clnes he left behind. They have }\end{aligned}$ tinse letters. I'm jugt giving you iliutrations. I have spent wy own men to provide Jin with a get of oopies to use in dimay'a defense. I gat doing more: there it requires axpirnations I an typing them up, as aill with sorm t chnical totters an soon as I finish this. Phere are thangs I know that fin does not. I see to it that he knows them. this is not for hin or for me, for there is no way we can get any woney out of this. But 1 ara tellinc you the truth whan i tell you that whis Jimiy is coing all these Loolish things that cannot help him and do hurt his I keoving at doveloping so strons a case that it can free him, at the same time trylut to prevent tho whores and those you call pointy-heads from rifining it, as thoy have beon doins and I do manh those ingy has sone to bod with regarileas of whet he telles you. ky sources ori thit are tho trost gependeble and have in every case been moven to bu 21 ght .

By now you aiso know that + have and had no interest in Kerghar. I have conuctec no investigation of hin and de notintund to. You will find thet nhst I hove naid abut hin is corrost, whether or not you now believs sae. I have no interest in hia and never huve. There are certain things by which you oan reac lawyors clearly. It is on those that I said what $I$ did. You nuke a bice aistake to pick lawyers on the basis of politice and rece. You should rewember, however, thet when we were travellin together in way of 1972 I was also wricing on a eivil caes ageinst Frank, which is the oproaite of what immy now says. ABe said to the day you took met to the $S t$. Houls airport oo I latd that work aidide then and there. I haye eluays baen for those civil auits that served a panpose. You have this way of remmbering, you ada te doing some of the work. I mention this beoung you also bnow ilmy says the opposite and I think you should understand his as he is now. On ersham as it is sith Bud my purpose is to let you see that you pocple beliove things that just are aot so. I'm sorry about that but I cangt do anything soont it. hope you have a good holledey, toc.
